# **INTRODUCTION INTO SECURITY**

# The importance of security in people's lives

# What is security?

## Controlled environment!

# SECURITY SEGMENTS

Physical security ...

Technical security ...

Cyber security ...

Analysis of security risks ...

Prevention of loss ...

Action in emergency/ crises situations ...

\* Employee safety ... \*

# Security specialist profile:

# KEY QUESTIONS

**What needs to be protected?**

**What should be protected from?**

**Where do you need to protect?**

**When do you need to protect?**

The image shows two identical glass jars side-by-side. The jar on the left is mostly empty, with a small amount of gold coins at the bottom. The jar on the right is filled with gold coins. Both jars have a white rectangular label in the center with a black border. The text on the labels is in bold black font. The background is white.

**Security Budget**

**Security Budget  
after an incident**

# The biggest mistakes:

- According to how they pay, we guard...  
    «If you pay peanuts, you get monkeys»
- I came, it was already there ...
- Security as an additional responsibility for someone...
- Nothing personal - just business ...
- Work is boring ...
- The limits of human possibility ...
- Lack of knowledge ...

# Seeming security:

# What to do?

**Pay attention to security risk management!!!**
